CORN SCREENINGS

B&L has a good supply of Corn Screenings available. My thought is that Commodity Traders are short on corn and prices could rise dramatically this summer. My suggestion is that if you are going to be short on your High Moisture Corn late summer, purchase Corn Screenings now to insure you don't get caught up in higher prices. Even if you only use 70% of the total now, mixed with your home grown grains.

There is still time to Pre-book Minlic Altosid 250lb.

Until April 15, SAVE \$6/250lb barrel when you commit to your summer-fall needs Barrels to be delivered 50% in spring, 50% first of July

Contact your feed rep today about the rebate program

for new users of Altosid!
